Introduction to FloFit

FloFit is a flexible and fully demountable push-fit plumbing system. The product is suitable for all domestic and small commercial hot & cold water installations, including central heating for both pressurised (unvented) and combi (vented) systems. FloFit enables the installer to undertake a faster, easier and more cost effective installation. Independent testing confirms time-saving of up to 40% compared with traditional methods.

FloFit fittings are manufactured in accordance with BS7291. PT: 1/2/3 and are a **WRAS** (All FloFit pipe is kitemarked to BS7291 Parts 1 & 3, Class S, Licence no 36801 and WRAS approved).

Push-Fit fittings for FloFit pipe
